

NZ FASHION TECH – Gateway Information 2011

Do you find it difficult?

- To find appropriate Gateway fashion Unit Standards
- To teach fashion when your Technology Teachers don't have an industry background
- Coordinating with training providers
- To find industry assessors
- That although the fashion industry is happy to support young people coming into the fashion trade, most are too busy to be involved in formal training necessary to complete some unit standard assessments

NZ Fashion Tech can provide schools with help for Gateway students interested in a career in the fashion industry.

How we can help:

- We have approval from the Apparel and Textile Industry Training Organisation (ATITO) to assist schools with Gateway
- Three NZQA Unit Standards available at Level 2
- Easy to follow teacher guides and marking schedules, student workbooks and accompanying material
- Can be completed in class time at the students own pace – apart from the work experience component
- Easy to fit around the students work load
- We have industry assessors on staff
- Buy packages for just one student or the whole class
- Used successfully in schools throughout the country since 2008
- Low cost

What next?

- Complete the **Expression of Interest** form
- Fax to 09 3095043 **OR** e-mail: jennymullins@nzfashiontech.ac.nz

NZ FASHION TECH – Gateway Information 2011

NZ Fashion Tech are pleased to offer the following Level 2 Unit Standards for your fashion students

UNIT STANDARD #	TITLE	CREDITS
17914	Demonstrate knowledge of workplace practice in the apparel or textile industry *	5
17915	Demonstrate knowledge of safe working practices in the apparel or textile industry	6
4838	Demonstrate knowledge of clothing materials	3

- Units 17914 and 17915 do not require specialist knowledge of teachers, industry or Gateway staff, and both are compulsory for National Certificates in Clothing Manufacture from Levels 2 to 4.
- The 20 day component in Unit 17914 includes attendance at both school and work experience*
- Students must complete a work experience placement but work experience hosts are not required to teach or assess – all they do is complete an attestation form.
- Unit 4838 requires some clothing industry knowledge. If necessary, NZ Fashion Tech is able to offer professional development to enable you to deliver and assess this unit.
- Unit packages include Student Workbooks and information booklets (If applicable), and comprehensive Marking Schedules.
- Workbooks are marked by you using the Marking Schedules supplied – return them to us for moderation and signing off by our industry assessors.
- Credits are registered by the school using NZ Fashion Techs Providers number – 9979.

Cost Per Unit Per Student:

\$15 per credit (including moderation)

\$40 per unit for disbursements (including photocopying, postage etc)

- Unit 17914 (5 credits x \$15.00 = \$75.00 + \$40.00 + gst) = \$132.25 incl gst
- Unit 17915 (6 credits x \$15.00 = \$90.00 + \$40.00 + gst) = \$149.25 incl gst
- Unit 4838 (3 credits x \$15.00 = \$45.00 + \$40.00 + gst) = \$97.75 incl gst

That's just \$379.25 for all 3 units per student

Note: You can purchase one, two or all three unit packages for each student.
